

I-CARE

IBD CANCER AND SERIOUS INFECTIONS IN EUROPE

1. OVERVIEW

INCLUSIONS ARE COMPLETED

The Executive Committee would like to thank you for all the work you did since the beginning of the study in March 2016.

In May 2019, we have reached **10206 assessable patients**.

We will now be able to focus on follow up and keep patients motivated in.

LAST REVIEW

In total **13469 patients included**.

10 206 patients have already filled-in at least 2 questionnaires and will be analyzed.

Congratulations to the 15 participating countries for the collaborative work!!!

5026 are being followed and 2951 have completed the study

AGENDA

- First publication Baseline Characteristic : end of 2020
- LPLV : March 2022
- Four main ICARE objective publications : from 2022

2. DATA CONTROL QUALITY

- ✓ **Queries resolution : Important milestone for publication of baseline characteristics**

The baseline characteristics will be analysed from screening and inclusion visit completed by each investigator in eCRF.

**7211 queries, among 8352 queries raised, were already solved.
Thank You For This Great Team Work !!**

However, **1141 queries are still pending to be solved.**

COUNTRIES	COUNTRY CODE	NUMBER OF PENDING QUERIES

We need your support and effort to solve these last queries before 20 OCTOBER 2020.

This deadline for queries resolution is a **crutial milestone** for publication of baseline characteristics.

3. CODING

As a reminder, it is **very** important that :

- Events are coded in order to be able to carry out analyses.
- **each center help in the recovery of their own events.** By this way, coders will be able to code events of their country

4. SUBSTUDIES

All investigators have the opportunity to submit substudies.

To obtain your password, go to the website in the substudies section, fill in your email address and click on forgotten password.

You will receive your password to connect to the platform of submission
